

HPD CURRICULUM

CLASS 12

CHEMISTRY

	OUTCOMES	METHODS OF EVALUATION	RESOURCES	EVALUATION
SOLID STATE	Learn the measures to save the environment and to conserve the money to improve the economy of the country	Questions based on concerned topic	Text and smart board	Board questions as assignment
Solution	Learns about welfare of human affairs, health concern and general awareness	Questions based on desalination of water and osmosis	Text and smart board and lab activities	assignment
Electrochemistry	Economic awareness ecofriendly	Questions based on topic solving numerical problem demonstration method	Text smart board and lab equipments	Project and assignment
Chemical kinetics	Learn the causes of accidents and measures to prevent it, develops helping mentality and kindness	Discussion of questions, solving numerical	Lab and text	activities
Surface chemistry	Environmental concern, health concern, safety precautions, being thrifty	discussions	Text, articles, smart board	Oral questions
General principles and processes of isolation of element	Concern for health, value of honesty, sincerity	discussion	Smart board ncert text
